

Extend Your Reach with Sugar Market

Google Ads is an online advertising tool that helps you connect with customers by serving your ads on search when prospects are looking for your brand or terms related to your business. You only pay for these ads when people actually click on them.

WHY CHOOSE SUGAR MARKET FOR ADS?

Sugar Market puts effective paid search advertising in reach for small to mid-sized marketing teams by eliminating the cost of third-party experts and reducing the time spent managing campaigns.

Marketers must understand the intricacies of conversion tracking, account structure, match types, bidding, and ad auctions to effectively drive conversions at a reasonable cost with Google paid search campaigns. Although Google Ads is an incredibly powerful tool, it can be difficult to see success without the right tools and expertise. Sugar Market for Google Ads simplifies all of these complexities by allowing you to launch Google paid search campaigns in minutes. By providing an intuitive platform that relies on AI for campaign optimizations, Sugar Market for Google Ads empowers small to mid-sized marketing teams to grow their business without hiring paid search experts.

- › Paid search visitors are 50% more likely to make a purchase than organic visitors.
- › For every \$1 spent on Google Ads, businesses earn an average revenue of \$2.
- › Google reports that search ads can boost brand awareness by as much as 80%, making consumers more likely to remember your brand and interact.
